Dear David:

I would like to extend our sincere appreciation to you for your briefing on the Center for Disease Control (CDC) Laboratory Response Network to the general membership of the Interagency Intelligence Committee on Terrorism (IICT) at our October 2001 meeting. As a result of your briefing, I was able to put into perspective the past weekend events in Florida and could explain to others within the Community what measures were already in place to respond to the incident if it became widespread. Your briefing stimulated much interest among the General Membership and we have had numerous requests for copies of your presentation slides. I hope this will begin a long relationship between the Center for Disease Control and the IICT. We look forward to you returning in the future to provide updates on the Laboratory Response Network.

Thank you for your support to the IICT.
